Tenali, Andhra Pradesh

Objective

Motivated and detail-oriented B.Tech CSE (AI & ML) student graduating in 2026 with a CGPA of 7.52, passionate about building scalable, high-quality software solutions. Skilled in Python, C++, and machine learning, with hands-on experience in real-world projects and internships. Eager to contribute to Salesforce's mission of driving innovation through AI, delivering customer-focused solutions, and collaborating in a global, team-driven environment.

Education

B.Tech in Computer Science Engineering (AI & ML)

Chebrolu Engineering College, Andhra Pradesh
Graduation Year: 2026 | CGPA: 8.30

Technical Skills

- Programming Languages: Python, C++, Java (basic)
- ML & AI Tools: Scikit-learn, TensorFlow, Keras, Pandas, NumPy
- Data Visualization: Matplotlib, Seaborn
- Databases: MySQL, MongoDB (basic)
- Version Control: Git
- Development Tools: Jupyter Notebook, Google Colab

Projects

AI Spam Caller Detection

- Designed and implemented a machine learning model in Python to identify and filter spam calls.
- Improved call screening accuracy by analyzing patterns and reducing false positives.
- Conducted unit testing and validation to ensure model reliability.

Robotics Automation with Machine Learning

- Developed an automation solution integrating ML models to enhance precision and efficiency in repetitive tasks.
- Optimized performance metrics and validated results through simulation testing.
- Collaborated with peers to integrate hardware and software components effectively.

Internship Experience

Machine Learning Intern – Talent Shine India

- Built and optimized ML models for predictive analytics.
- Created and tested automation scripts to improve workflow efficiency.
- Documented results and presented findings to team members for decision-making.

Achievements & Leadership

- Led a 3-member project team to design and test an AI-based caller detection system.
- Presented project results at college-level tech symposiums.
- Actively participated in coding hackathons and AI/ML workshops.

Core Competencies

- Analytical problem-solving and debugging skills.
- Team collaboration in cross-functional environments.
- Strong adaptability and self-motivation.
- Familiarity with automated testing strategies and code quality improvement.

Declaration

I hereby declare that the information provided is true to the best of my knowledge.
